

Together we will create a space for personal transformation, to manifest your dreams and prayers, to provide an alchemical vessel in which each of us can turn our lead to gold. We mindfully engage with each other as a way to discover more about ourselves, our relationships, and our own highest vision.

From a participant:

"I wasn't sure if I would be able to stay awake from midnight to dusk, but I had no problem. The energy of the fire, the land, and the group sustained me! I really enjoyed the drumming and the rattles. Some of the songs that were sung were beautiful!"

I witnessed a few people "releasing." They were being supported by the shamans and the healers in the group. It was a week end that I will never forget. I forged some new friendships too.

I'm already looking forward to next years Sacred Fire Circle. "

Nestled in the rolling hills of Western

Ceremony as we drum, dance, chant,
trance, offer service, and connect with
one another around the Sacred Fire each
night from midnight to dawn.

This event has NO STAFF!
We all become staff upon arrival
and create the event, rituals,
ceremonies, workshops, and any
programming!
